CORE SKILLS

- Data Engineering: ETL Pipelines (SQL, Python), Snowflake Schema, OLAP, Fact/Dimension Modeling.
- Databases: MS SQL Server (Advanced), PostgreSQL, MongoDB.
- AI & Backend: ML.NET, ONNX, C#, ASP.NET Web API, Kafka, Docker.

PROFESSIONAL EXPERIENCE

Excel Technologies Ltd. | *Mar 2023 – Present*
Data Engineer *(Nov 2025 – Present)*

- Designed SCRS (OLAP Data Warehouse) using Snowflake architecture on MS SQL Server.
- Engineered a TSRS Data Transport Pipeline syncing transactional data every second into an OLAP database.
- Developed an AI Chatbot using ML.NET and ONNX for intent detection and automated ticket purchasing.
- Led end-to-end healthcare data migration (SmartCare Plus → Care Pro → SCRS) and built Python ETL pipelines.
- Junior Software Engineer *(Mar 2023 – Oct 2025)*
- Developed backend systems using ASP.NET MVC & Web API. Designed and optimized SQL Server relational databases.

KEY PROJECTS

- Tera Support *(Microservices & Reporting)* – .NET 8, Kafka, PostgreSQL, OLAP
- BTMS (Zambia) *(Data Architecture & AI Chatbot)* – PostgreSQL, ASP.NET Web API, ML.NET, ONNX
- SCRS *(Smart Care Reporting Service)* – MS SQL Server, Snowflake Schema, SQL Agent
- RewardsPipeline *(ETL System)* – Python, MongoDB, Docker
- Care Pro Data Migration – MS SQL Server, SSIS

EDUCATION & CERTIFICATIONS

- B.Sc. in Computer Science & Engineering – Stamford University Bangladesh *(CGPA: 3.26)*
- IBM / Coursera Data Engineering Professional Certificate *(Apr 2026)*
- Generative AI: Elevate your Data Engineering Career – IBM *(Apr 2026)*
